

# I-70 Cave Springs to Fairgrounds - Request for Qualifications

## Submitted Questions and Responses

RFQ Section	Question	MoDOT Response	RFQ Addendum?
3.5 & 4.3	In section 4.3, Page Limits, (Part 3 – Key Personnel Experience) it states there are (3) pages allowed for Key Tasks in addition to the (3) pages allowed for the Executive Summary. In Part 3 – Key Personnel and Organization submittal requirements (Page 10 of 17 of the RFQ) there is no mention of the three pages and expected detail for the Key Tasks. Please confirm the maximum number of pages for Part 3 and, if the total is (6) pages, the submittal requirements of the Key Tasks section.	The three (3) pages allowed for the key tasks were intended to be in addition to the three (3) pages allowed for the executive summary. The key tasks are identified based on the project's needs and may not be addressed by the required key personnel listed in section 3.5. The intent is to provide an opportunity for each Submitter to share their approach to managing the key tasks that they identify as being critical for the success of the project. An addendum will be issued to allow for a six (6) page executive summary that includes the key tasks.	Yes
	Will MoDOT provide RFP scoring criteria, even if in draft form, to allow proposer to best determine Key Personnel and Additional Key Personnel?	MoDOT will not have the scoring criteria released prior to submittal of the Statement of Qualifications. However, MoDOT intends to release a draft copy of the Request for Proposal scoring criteria, in the form of a draft Instructions to Proposer, prior to the release of the Request for Proposals.	No
